....

Career Objective: Eager to use my frontend development skills to create responsive, user-focused websites that provide a seamless and engaging experience. I am passionate about building clean designs and contributing to projects that support the company's goals and innovation.

Mini projects:

Online Food Delivery Application (React, Spring Boot, MySQL): Developed a multi-vendor online food delivery platform with features like user authentication, role-based access, secure payments via Stripe, and a responsive UI for seamless customer and restaurant management.

To-Do List App (React): Developed a task manager with drag-and-drop functionality to manage tasks interactively.

E-Commerce Website (Django, Python, HTML, CSS): Built a full-stack shopping application using Django and Python, with features like product search, shopping cart, secure payment gateways, and order tracking, ensuring a smooth and efficient shopping experience.

Education:

- ➢ B.E (CSE) with 7 CGPA from Visvesvaraya Technological University (R.L. Jalappa Institute of Technology -2025).
- ➢ PUC with 73.16% from State board, Sri Devaraj Urs Pre University College (2021).
- ➢ SSLC with 75.52% from State board, Sri Devala Maharshi Eng High School (2019).

Additional Qualification:

- • Java programming – Kudos, October2024
- • Web development bootcamp – Udemy
